

Dear Mr. Babu R Parambath

Greetings

I must congratulate you and your organization for taking efforts to take us to your innovative project on 'Zero Waste Management" at Kozhikode Airport premises. This approach surely become an eye opener for many in the months to come. With this project your team have shown the sustainable ways to handle the waste by segregating them for recycling and for composting. By doing so, you are really "adding value to the waste" on one hand and reducing the "public nuisance" on the other hand. Over all you are contributing to 'Social Benefit". I wish such sustainable approaches in managing the waste shall spread across the country and making our lives more healthier. Once again I thank "NIRAVU Vengeri" team for their wonderful work.

All the best

With warm regards

Dhananjaya B N
